Ahmed Khafaji

I'm currently looking to gain skills and experience in the field of software engineering. I'm a hard worker and a quick learner. I'm always looking for new challenges and opportunities to grow.

EDUCATION

York University

Software Engineering - 7.4 / 9　　　　　　　　　　　　Sep 1, 2020 - April 2025

PROJECT

Statistical World Analysis & Visualizer　　　　　　　　　　　2022
- Used Java to create software that allows users to visualize data by using tools such a Java Swing and World Bank API.

Portfolio (khafaji-ahmed.github.io)　　　　　　　　　　　2022
- Used Javascript to create a portfolio highlighting and showing my experiences and skills as a software engineer

Music Tableture　　　　　　　　　　　　　　　　　　2022
- Used Java to create software that translates and plays music by converting drum, guitar and bass tablature in text format into the musicXML format.
Banking System　　　　　　　　　　　　　　　　　　2021
- Used Java to create a system for users with essential functions such as depositing and withdrawing money from an account.

Automated Watering System　　　　　　　　　　　　　2021
- Used MATLAB and Java with an Arduino to create an automated system to water plants, and notify users.
